

Utility Arborist Positions

Dothan, AL

Position Summary:

Edko, LLC is seeking utility vegetation management professionals, and/or candidates with a 2 or 4 year degree in forestry or a related field. Personnel are expected to perform inspections, and evaluations of line clearance work and vegetation along utility lines. Utility Arborists will plan, direct, and coordinate the activities of tree clearance crews, interface with and negotiate line-clearance crew access and practices with utility customers, as well as, conducting other various special projects.

Utility Arborist Requirements:

- The ability to work independently with excellent communication skills.
- An AA or BA Degree in forestry, arboriculture or a related field; or utility vegetation management experience. Utility Arborist certification or ability to become certified within 1-year is preferred.
- Local tree knowledge beneficial
- Ability to work in inclement weather
- Ability to interpret and follow maps
- Ability to use a laptop computer, GPS, and GIS
- Valid Driver License required
- Transmission power line patrol to identify: "danger" trees (hazardous trees) and any other potential threats
- Check all vegetation to ensure it is in compliance with the NERC regulations
- Herbicide application to vines and brush near transmission towers/structures
- Mapping and measuring ROW to check for proper width, etc.

Information:

- Full time positions starting immediately
- Edko offers competitive wages and excellent benefits
- Company Vehicle/Gas Card supplied for work related/commuting purposes

- Pre-employment drug screen and background check required

Please apply by using the Edko website: www.edkollc.com and submit through the Cullman location.
