

Visual Observer

Position Summary:

Edko, LLC is seeking visual observer (VO) candidates to aid our Pilot staff in UAV/drone operations. A background in forestry, arboriculture, experience with UAVs or a related field is beneficial but not required. Personnel will perform work along right-of-ways and road sides. Visual Observers will participate in all aspects of drone missions and will also be required to perform herbicide applications when the conditions are unfavorable for drone flight.

Requirements:

- Excellent communication skills.
- Ability to work in inclement weather
- Ability to interpret and follow maps
- Ability to use a laptop, radio communications and mobile apps
- Valid Driver License with a clean driving record is required
- The ability to work independently for long hours and out of town with extended overnight travel
- Vegetation management experience, tree knowledge and ID skills or drone experience a Plus

Information:

- Seasonal positions that could become permanent
- Edko, LLC offers competitive wages and excellent benefits
- Company Vehicle/Gas Card supplied for work related purposes
- Meals and lodging are covered by company while traveling out of town
- Pre-employment drug screen and background check required
